25. Age regression (uncovering techniques)
26. Your hypnosis practice

The Patient Whisperers

was founded by a group of experienced Licensed Healthcare Providers who believe that Complementary Medicine should be an integral part of providing comprehensive care to all. We are dedicated to helping everyday ordinary people with everyday ordinary problems using hypnotic techniques. Our Mission is to enlighten both the medical world and their clients about the phenomenal advantages of integrating complementary medicine into the current practice of “modern” medicine.
